# Party pampering

Party outfit... tick. Party hair... tick. What about the party face? **Hayley Jordan**, nursing director at ASC, is on hand to give advice about party pampering treatments that will leave you glowing and radiant for that special occasion

## Hydrafacial

This intensive medical facial will cleanse and exfoliate away dull skin cells, clear and tighten pores and plump skin with nourishing peptides so you can glow the night away.

## Profhilo

This hydrating and smoothing treatment will last the whole festive period and beyond, making you look as if you have had the best night's sleep – even if you haven't.

## Ultralift

This heat-based tightening treatment will firm, contour, plump and tighten, so the only thing hanging is those sparkling earrings.

## Lip treatment

Whether you are seeking fuller lips, or gentle hydration and definition, dermal fillers can be used to give you kissable lips for those special mistletoe moments.

For further information on any treatments, or to book a complimentary consultation with Hayley, contact the Aesthetic Skin Clinic.
